**Date:** Tuesday, June 7, 2022 11:09:15 AM

---

Powerex appreciates the opportunity to comment on the Redispatch and Curtailment Procedures V14 Business Practice.

Powerex understands from the workshop that BPA will continue to administer the curtailment procedures based on OATT priority and certain steps (namely Step 1 through 3) will not be visible to customers, but the end result will be visible when Step 4 is completed. Powerex suggests that BPA clarify the language as to which steps are visible or not visible to customers in the business practice.
